

Indian Youth Climate Network

Opportunities for Youth in Circular Economy Sector

The Indian Youth Climate Network (IYCN) is a youth-led organisation that aims to promote sustainable development and combat climate change in India. One of the key initiatives of the IYCN is to promote green jobs in a circular economy through various programs and activities.

- We conduct workshops, training programs and seminars for the youth to familiarise them with the concept of circular economy and how it can create jobs.
- We engage in advocacy and policy work to create a more favourable environment for the growth of green jobs in the country.

As part of our flagship program - **"Agents of Change"**, IYCN is organising training and awareness workshops on Circular Economy across the country (These capacity building workshops are supported by the European Union Resource Efficiency Initiative in India). IYCN has partnered with various organisations and companies to create opportunities for young people to gain practical experience in green jobs in various sectors of Circular Economy - Textile, Agriculture, Plastic, E-waste, Logistics, Green Buildings, Municipal Solid Waste, Research etc.

OUR ECOSYSTEM PARTNERS

How to apply through IYCN? Fill this form: <https://forms.gle/kPPxJDcay8jsW5m38>

The above option is only available to IYCN members, other candidates can reach the concerned hiring team of respective organisations directly (Email IDs are provided against each listing)

To join the network, please fill this form: <https://bit.ly/iycn-members>

Note - There is no fees to become the network member.
